

# MEET THE TEAM

WWW.VAPORSPO RTS.ORG

## Note from: Micah & Audrey McElveen

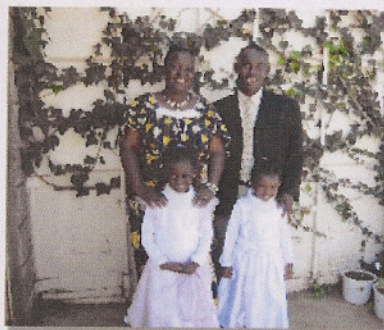

God's grace & favor has been incredible in the life of Vapor Sports Ministries. Today more than ever, we are passionately committed to pursuing the mission of Christ through the vision of Vapor. The global needs are incredible but they do not surpass the global heart of our Indescribable God.

Through you and many others,

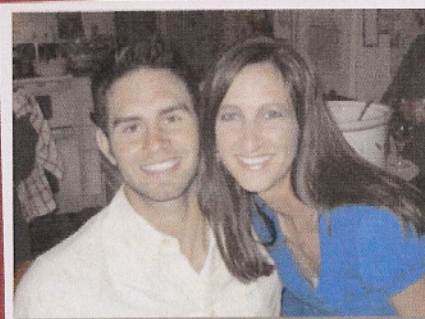

God has supplied the investment of financial resources, goods, prayers, and services. Across the country people have locked arms with us in different ways to help establish centers for humanitarian aid and sustainable life change in third world environments. Among the amazing things happening, three new centers are scheduled to break ground this year.

Although we focus on the needs and work in the third world, we wanted to introduce you to some of the people giving their lives to further the cause. At great personal sacrifice, most of the individuals featured in this update are currently fulfilling volunteer roles in our newly donated headquarters in Fayetteville, AL. Thank you so much for your support!

# Ed Arterbury

DIR. OF FINANCIAL PROGRESS

After Ed's completion of a 30 year career in real estate, he has joined Vapor as the Director of Financial Progress. Ed's background and success in various business endeavors and investments will help Vapor generate the finances necessary to establish 40 centers for humanitarian aid and sustainable life change in third world environments by 2017.

## ED & PATTI

Ed and Patti Arterbury are from Jackson, CA. Their desire to serve in international relief and disciple making has led them to begin a journey with Vapor. They have been married for over thirty-five years and have two sons. Amongst other endeavors Ed and Patti founded a successful non-profit thrift store in Jackson, CA, that aids its volunteers with the funds to experience the fullness of mission trips around the world.

# Danielle Gardner

DIR. KIDS 4 KIDS

"KIDS4KIDS" is creative program that enables kids in America to help Vapor Sports Ministry Centers, for kids in the slums of Africa. This creative program is designed to supplement VBS, kid's camps, Rock-the-Block, or back-yard bible clubs. It brings an international focus to kids in a way that opens their eyes to the many desperate children around the world and gives them an avenue, through coins collected, to help build centers. Each center not only brings the Gospel in a powerful and effective way, but also brings desperately needed aid to the poorest of the poor.

## DAVID & DANIELLE

David and Danielle moved from Somerset, Kentucky to Birmingham, Alabama in 2008 to join forces with Vapor. They have two lovely daughters; Kinsley and Paige. David serves as Vapor's Director of Technical Progress and Danielle serves as the Director of KIDS4KIDS.

# Kimberly Thrasher

Kim is a Vapor volunteer who helps tremendously in Vapor's offices as well as across the nations. She wanted to be apart of Vapor Sports Ministries because it gave her a chance to do her part in spreading the gospel to the ends of the earth.

## KIMBERLY THRASHER

Since Kim was a little girl she has wanted to help others. Kim graduated from Bible College with her education degree. At the beginning of 2009, Kim moved from San Diego, California, where she was previously teaching and ministering in her local church, to Birmingham, Alabama to help Vapor. Seeing people grow mentally, physically and spiritually is her passion.
